Here's another idea...

An album is a great way to keep your family's images together. Yes, albums are perfect for weddings & events. But, have you ever considered an album of family portrait images?

How about an album of family reunion groups?

Albums come in a variety of sizes & styles. Albums can be built small enough to slip into a purse or large enough to make a big statement on your coffee table.

Base albums are very budget friendly without looking cheap.
